The Blue Whale

The blue whale is the largest animal known to have ever lived on Earth, growing up to thirty metres long. Despite its enormous size, it feeds almost entirely on tiny shrimp-like creatures called krill, which it filters from the water using comb-like structures called baleen plates. Blue whales are found in oceans all over the world, often migrating long distances between cold feeding grounds and warmer breeding waters. A single blue whale can eat several tonnes of krill in a day during feeding season. Because of past commercial whaling, the species is currently classified as endangered, although numbers have slowly begun to recover under international protection.

Test 15

Read the following text and answer the questions given below.

The History of the Olympic Games

The Olympic Games began in ancient Greece more than two thousand seven hundred years ago, held in the city of Olympia in honour of the god Zeus. Only free Greek men were allowed to compete, and the events included running, wrestling, and chariot racing. The Games were held every four years and were so important that wars between Greek city-states were sometimes paused to allow athletes and spectators to travel safely.

The ancient Games eventually came to an end around 393 AD, after Greece became part of the Roman Empire and interest in the traditional festival faded. For over a thousand years, no Olympic Games were held anywhere in the world.

In 1896, a Frenchman named Pierre de Coubertin revived the idea, organising the first modern Olympic Games in Athens. Since then, the Games have grown enormously, now welcoming athletes of every gender and nationality to compete in dozens of different sports. Today, the Olympic Games remain one of the largest and most watched sporting events on the planet.

(1) State whether the following statements are True or False. Put a tick (✓) in the relevant cage.

Statement	True	False
The ancient Olympic Games were held in the city of Olympia.		
Both men and women could compete in the ancient Olympic Games.		
The modern Olympic Games were first organised by Pierre de Coubertin.		
The Olympic Games have been held continuously without any gap since ancient times.		

Underline the correct answer.
