

English Pupil's Books, Workbooks and Teachers' Guides

Every English book and guide the government publishes free, with a direct link to each one.

These are links to the official sites

These are the government's own books and guides. Where the link says **department copy** or **NIE copy**, it goes to the official site: the books belong to the **Educational Publications Department** (edupub.gov.lk) and the guides to the **National Institute of Education** (nie.lk). Nothing on this page is an RCF publication.

The department's server is often slow and frequently stops a large download half way, so where we hold a copy in the **RCF English Drive** that comes first. **Download** saves the PDF straight to your device; **read online** opens it in Google Drive without downloading; the official link is kept beside them. If one link will not open, use another.

Every link here was checked and opened a PDF. The department's site has **no https**, so your browser may warn you that the book site is not secure before it opens the file. If a link stops working, use the department's [book download page](#) or the NIE [Teachers' Guide page](#) and choose the grade yourself.
